

**LACTROL[®] IS THE ONLY
100% VIRGINIAMYCIN
PRODUCT ON THE MARKET
FOR ETHANOL PRODUCTION.**

When you need superior control of bacteria in the ethanol fermentation process, the choice is clear. Lactrol. For decades, Lactrol has been the market leader for controlling bacteria. Any other product introduces fillers and low cost ingredients which do nothing to control bugs. But with Lactrol you get 100% virginiamycin activity. And that means Lactrol is the most powerful antimicrobial in the biofuels industry. Lactrol. The clear leader in controlling bacteria.
