

Here's a checklist our competitors hoped you'd never see.

100% virginiamycin activity in product

FSMA-compliant supply chain tracking

In-house virginiamycin residue testing*

Technical support for optimal product dosing

Filler products

* 2,854 no detect samples since 2010

Lactrol[®]. The only 100% virginiamycin antimicrobial on the market.

Compared to other products on the market, **Lactrol** checks all the right boxes and Phibro is the sole manufacturer of virginiamycin. When you need superior control of bacteria in the ethanol fermentation process, the choice is clear.
